HOSPITALITY

AT KIMLEY-HORN

OUR CAPABILITIES

Kimley-Horn's experience is unsurpassed as one of the country's largest and most diverse landscape architecture and design consulting firms. Our breadth of services and interdisciplinary, collaborative approach enable us to create spaces that are accessible, implementable, and maintainable. We understand what makes a place worth visiting and remembering, while considering how to create something that is both constructible and timeless.

Kimley-Horn specializes in creating distinctive environments that feature innovative, unique, and exceptional design elements, where architecture, landscape, entertainment, culture, and history combine to create an unforgettable experience. The firm has a long history of successfully delivering projects that function as destination gathering spaces and highly complex, sustainable implementation accomplishments.

To achieve the extraordinary, we employ a single business unit methodology; our 140+ nationwide offices and more than 400 landscape architecture professionals are never in direct competition with one another. Instead, we operate with the belief that our professionals are all part of one large team, with open access to a deep pool of shared resources and the freedom to pull in special expertise or additional technical assistance when needed.

Kimley-Horn's unique culture has guided the firm through many years of success. Our core values are deeply ingrained in everything we do. We are driven by a philosophy of exceptional client service, an unshakable commitment to quality, and an understanding that being on point, on target, and on budget requires knowing exactly what you need, when you need it. Kimley-Horn delivers with a passion and conviction for getting projects done more efficiently and effectively.
