

Simply a Better Experience.

Kimley»Horn

Expect More. Experience Better.

At our core and imprinted on our DNA is something essentially different about Kimley-Horn. There is a unique vibe here—a kind of intensity and drive that defines how we connect with our work and our clients.

We understand that the ideal outcome requires the experience not only to see what is directly ahead, but to envision the landscape of possibilities, and respond adeptly to whatever comes along—balancing rigor of process with creative thinking for remarkable results.

We understand that being on point, on target, and on budget require knowing exactly what you need, when you need it—and delivering it with a passion and conviction for getting projects done more quickly and more effectively.

We understand that real collaboration requires far more than a partnership—it also means earning deep trust by living up to our promises day in and day out.

Our clients consistently tell us that Kimley-Horn provides a better experience. That's the truth behind our reputation—with Kimley-Horn, you can **expect more and experience better.**

Kimley-Horn is one of the nation's premier planning and design consulting firms. Whether your project is national or local and involves public infrastructure or private development, we look out for your best interest, reduce your risk, and deliver great value. From demanding long-range strategies and complex planning and design to development and construction challenges, our engineers, planners, and environmental scientists combine the creativity to develop insightful solutions with the rigor to deliver practical results that consistently exceed expectations.

Since 1967, Kimley-Horn has delivered outcomes you can depend on—projects that can be successfully developed, permitted, and built on time and within budget. With offices nationwide, Kimley-Horn is your one-stop consultant, offering superior solutions and an exceptional level of service in a wide range of services.

TRANSPORTATION

Planning, Engineering and Operations

Kimley-Horn's founders were traffic engineers and transportation planners—and we still provide our clients with the same top-notch, creative, and practical guidance that built our reputation. Our ability to collaborate, react swiftly, and communicate effectively with all stakeholders delivers the best outcomes for site level traffic impact analyses, corridor and regional multimodal plans, advanced systems and operational approaches, and much more. Whether your need is small or large, you'll benefit from Kimley-Horn's integrated and collaborative national practice with local expertise in your community.

SERVICE AREAS

- Communications/Telecommunications
- Context-Sensitive Solutions
- Electrical/Lighting
- Intelligent Transportation Systems
- Traffic Engineering
- Traffic Operations
- Traffic Safety
- Transportation Engineering and Design
- Transportation Modeling
- Transportation Planning

Roadway and Bridge

Our roadway and structural engineers are driven to make your priorities their own. Let our local knowledge and relationships help you get streamlined approvals. Our clear and thorough plans lead directly to cost savings and smooth, well-coordinated construction. And, if it's speed you need, we deliver—our production horsepower enables us to meet even the most aggressive schedules. Responsiveness, resourcefulness, and a reputation for stellar service are just three reasons why the experience of working with Kimley-Horn is simply better.

SERVICE AREAS

- Bridge Assessment, Engineering and Rehabilitation
- Constructibility Reviews
- Context-Sensitive Solutions
- Design-Build
- Drainage, Stormwater Management and Permitting
- Construction Cost Estimation
- Roadway Engineering
- Streetscape, Landscape and Irrigation
- Sustainable and Green Design
- Utilities Coordination, Design and Relocation

TRANSPORTATION

Transit

When project complexities loom large, you can count on Kimley-Horn's foresight and years of national transit experience to help you master local relationships, public engagement, and environmental compliance. Working with you hand in hand, our multidisciplinary teams map out a clear, concise, achievable plan to meet your project's goals and time frames—then consistently meet deadlines and budgets and fully deliver on our commitments. With complete transit solutions for passenger rail systems, streetcars, people movers, bus systems, and rapid transit, you can count on Kimley-Horn to keep your transit project on track.

SERVICE AREAS

- Alternatives Analyses
- Construction Phase Services
- Environmental Studies
- Grant Applications and New/Small Starts Assistance
- Program Management
- System Plans
- Transit Engineering and Design
- Transit-Oriented Development
- Transit Planning
- Transit Signal Priority

Aviation

The aviation industry is challenging enough. Make your job easier by partnering with a consultant you can trust to keep passengers and tenants happy, contractors working, and the airport functioning and safe. Our seasoned multidiscipline team of aviation professionals melds airside and landside expertise to deliver superlative planning, design, systems development, operational strategies, and specialized services—resulting in exceptional project outcomes. Airports of all sizes turn to Kimley-Horn for practical, real-world solutions and outstanding value.

SERVICE AREAS

- Aerospace Planning and Design
- Airside Planning and Design
- Construction Phase Services
- Environmental Planning and Analysis
- Finance and Grant Administration
- Landside Planning and Design
- Lighting and Navigational Aids
- Master Planning and On-Call Planning Services
- Modeling, Simulation and Visualization
- Parking Planning, Design and Technology
- Pavement Management
- Program Support Services
- Safety Management Systems
- Security Design

LAND DEVELOPMENT

Meet the consulting firm that works as fast, as smart, and as hard as you do. Developers of every type will find immense benefit from Kimley-Horn's can-do attitude, sense of urgency, and creative problem-solving. Our in-depth understanding of land development challenges can help you anticipate problems before they occur. Let our technically talented, politically astute professionals look out for your best interests—helping position you, your project, and your organization for success.

MASTER PLANNING

- Due Diligence and Feasibility Studies
- Visioning and Best Use
- Conceptual Planning/Diagrammatic Layout
- Site Planning

ENTITLEMENT SERVICES AND STRATEGIES

- Zoning and Regulatory Approvals
- Environmental and Technical Studies
- Transportation and Circulation Studies
- Community Engagement
- Public Meeting Representation

SITE DESIGN

- Site Civil Engineering
- Stormwater Management
- Urban Design and Landscape Architecture
- Offsite Improvements
- Survey and Mapping

PERMITTING

- Access/DOT Permitting
- Utility Provider Coordination
- Site Grading and Stormwater Pollution Prevention Plans
- Environmental Permitting and Mitigation Planning

LANDSCAPE ARCHITECTURE + PLANNING

Landscape Architecture

As one of the nation's largest planning and landscape architecture teams, Kimley-Horn's results-oriented professionals bring passion and creativity to the planning and design of public and urban spaces. Our visionaries draw from the resources of our multidiscipline design consulting firm to provide the perfect blend of national experience and local sensitivity. The result? Visual environments with meaningful themes, distinctive images, and a strong sense of place. Let us help you imagine the possibilities.

SERVICE AREAS

- Entitlements

- Monitoring and Reporting
- Regulatory Coordination, Compliance and Support
- Restoration
- Stormwater Pollution Prevention
- Water Harvesting
- Water Quality/Surface Water Pollution

ENVIRONMENTAL

Environmental consulting comes with a significant responsibility to our clients and the delicate balance affecting our planet's ecosystems, wildlife, and developed communities. Kimley-Horn consistently plans and designs projects to avoid, minimize, and mitigate environmental impacts. Our environmental planners, ecologists, biologists, geologists, and hydrogeologists provide a full range of environmental services and are well-versed in federal, state, and local regulations. Let us collaborate with you to achieve project outcomes that are not only environmentally compliant and responsible, but also technically sound and economically viable.

SERVICE AREAS

- Brownfields
- Contamination Assessments and Remediation
- Endangered and Threatened Species Consulting
- Environmental Permitting
- Environmental Planning
- Environmental Site Assessments – Phase I and II
- Mitigation Banking
- NEPA/State Environmental Regulation Planning
- Noise, Vibration and Air Quality Studies
- Section 404 and State Wetland Permitting
- Water Resources/Water Quality Studies
- Wetland and Stream Consulting

ENERGY

Your challenges are vast and your deadlines are tight. Our responsiveness, sense of urgency, permitting acumen, and innovative designs will achieve the results you need. With a track record of successful custom solutions for energy generation and transmission projects involving traditional or renewable sources, Kimley-Horn is adept at guiding our clients through increasingly complex regulatory processes. From pipeline route selection on a downstream project to site development for wind farms and everything in between, we think on our feet to creatively address issues large and small, consistently creating exceptional value for our clients.

SERVICE AREAS

- Agency Permitting – Local, State and Federal
- Construction Observation
- Deal Structure Facilitation
- FAA/Military Radar Coordination
- Logistics Consulting
- Pipeline Design
- Route Selection Analysis and Feasibility
- Site Planning and Engineering
